# INDEX OF AUTHORS

ADLAKHA, R. C. 279

BARNETT, A. 153
BELMONT, A. 123
BIGO, H. 279
BOLOUKHÈRE, M. 73
BRÜDERLEIN, M. 111
BURNS, R. G. 193

CHANDLEY, A. C. 249
CHATTERJEE, C. 95

DOHRMANN, U. 111

EDWARDSON, J. M. 209

FISHER, P. R. 111
FORER, A. 21, 41

GERSHMAN, H. 177
GOETZ, P. 249
GRINNELL, F. 61

KARATZA, C. 163
KATZIN, W. E. 177
KENDALL, F. M. 123

LLOYD, R. V. 139

McOY, J. P. 139
MILLETTE, C. F. 233

MUKHERJEE, A. S. 95

NAKAOKA, Y. 223
NICOLINI, C. 123

OOSAWA, F. 223

RAHAT, M. 265
RAO, P. N. 279
REICH, V. 265
RUSSELL, D. G. 193

SAHASRABUDDHE, C. G. 279
SCHAAP, C. J. 21, 41
SCOTT, B. K. 233
SHALL, S. 163
SPEED, R. M. 249
STEERS, E. JR 153
STEIN, W. D. 163

TANAKA, H. 223
TRAUB, P. 1

VARANI, J. 139
VORGIAS, C. E. 1

WANG, Y. C. 279
WICHA, M. S. 139
WILLIAMS, K. L. 111
WRIGHT, D. A. 279

# INDEX OF SUBJECTS

**Adhesion**
cell–substratum, manganese dependent: GRINNELL 61
**Arginine modification**
effect on vimentin and desmin assembly into intermediate filaments: TRAUB & VORGIAS 1

**Birefringence**
in spindle fibres, analysis by video digitizer: SCHAAP & FORER I, II 21, 41

**$Ca^{2+}$**
-dependent regulation of beat frequency of cilia in *Paramecium*: NAKAOKA, TANAKA & OOSAWA 223
**Calcium**
influence on *Dictyostelium* phototaxis and thermotaxis: DOHRMANN, FISHER, BRÜDERLEIN & WILLIAMS 111
**Calmodulin**
antagonists, effects on beat frequency of cilia in *Paramecium*: NAKAOKA, TANAKA & OOSAWA 223
**Capping**
of cross-linked antigen–antibody complex in specific immobilization of *Paramecium* by immune sera: BARNETT & STEERS 153
**Cell ageing**
kinetics in mouse embryo fibroblasts: KARATZA, STEIN & SHALL 163
**Cell cycle**
of HeLa S-3 cell, nuclear organization: BELMONT, KENDALL & NICOLINI 123
**Cell mobility**
control by cyclic AMP: KATZIN & GERSHMAN 177
**Cell surface glycoproteins**
in spermatogenesis: MILLETTE & SCOTT 233
***Chlorella***
free-living, symbiosis with *Hydra*: RAHAT & REICH 265
**Chromatin**
organization during HeLa S-3 cell cycle: BELMONT, KENDALL & NICOLINI 123
**Cilia**
of *Paramecium*, $Ca^{2+}$-dependent regulation of beat frequency: NAKAOKA, TANAKA & OOSAWA 223
**Chromosomal spindle fibres**
video digitizer analysis of birefringence: SCHAAP & FORER I, II 21, 41
**Chromosome decondensation**
in mitotic HeLa cells: ADLAKHA, WANG, WRIGHT, SAHASRABUDDHE, BIGO & RAO 279
**Coccidia**
polar rings in sporozoites: RUSSELL & BURNS 193
**Cyclic AMP**
in control of cell mobility: KATZIN & GERSHMAN 177
**1,2-Cyclohexanedione**
modification of arginine, effect on vimentin and desmin assembly into intermediate filaments: TRAUB & VORGIAS 1

**Desmin**
assembly into intermediate filaments, effect of arginine modification: TRAUB & VORGIAS 1
***Dictyostelium discoideum***
transitions in behaviour: DOHRMANN, FISHER, BRÜDERLEIN & WILLIAMS 111
**DNA**
intranuclear organization during HeLa cell cycle: BELMONT, KENDALL & NICOLINI 123
**DNA replication**
activation of sites in *Drosophila* polytene chromosomes by puromycin: MUKHERJEE & CHATTERJEE 95
***Drosophila***
polytene chromosomes, puromycin activation of DNA replication sites: MUKHERJEE & CHATERJEE 95

***Eimeria***
microtubule-organizing centre associated with lateral surface of microtubule: RUSSELL & BURNS 193

**Fibroblasts**
mouse embryo, kinetics of ageing: KARATZA, STEIN & SHALL 163
**Fluoride**
influence on *Dictyostelium* phototaxis and thermotaxis: DOHRMANN, FISHER, BRÜDERLEIN & WILLIAMS 111

**Golgi complex**
in intracellular transport of influenza virus haemagglutinin in infected MDCK cells: EDWARDSON 209

**Haemagglutin**
in influenza virus-infected MDCK cells, effect of monensin on: EDWARDSON 209
***Hydra viridis***
infection by free-living *Chlorella*: RAHAT & REICH 265

**Immobilization**
of cells by specific immune serum, cross-linking between antigen and antibody: BARNETT & STEERS 153
**Influenza virus**
haemagglutinin, processing and transport in infected MDCK cells: EDWARDSON 209
**Intermediate filament assembly**
effect of arginine modification on assembly of vimentin and desmin: TRAUB & VORGIAS 1

**Kinetics**
of cell ageing in mouse embryo fibroblasts: KARATZA, STEIN & SHALL 163

**Laminin**
-like substance on surface of murine fibrosarcoma cells: McCOY, LLOYD, WICHA & VARANI 139

**Malignant cells**
laminin-like substance on surface: McCOY, LLOYD, WICHA & VARANI 139
**Manganese**
-dependent cell–substratum adhesion: GRINNELL 61
**Meiosis**
sequence of prophase in puberty in male mouse: GOETZ, CHANDLEY & SPEED 249
**Microtubule-organizing centre**
associated with surface of microtubule in *Eimeria*: RUSSELL & BURNS 193
**Mitotic factors**
of HeLa cells, inactivation by u.v.: ADLAKHA, WANG, WRIGHT, SAHASRABUDDHE, BIGO & RAO 279
**Monensin**
effects on influenza virus haemagglutinin in infected MDCK cells: EDWARDSON 209
**Mortalization theory**
in mouse embryo fibroblasts: KARATZA, STEIN & SHALL 163
**Murine fibrosarcoma cells**
a laminin-like substance identified on surface: McCOY, LLOYD, WICHA & VARANI 139

**Nuclear structure**
during HeLa cell cycle: BELMONT, KENDALL & NICOLINI 123
**Nucleic acid-binding proteins**
effect of arginine modification: TRAUB & VORGIAS 1
**Nucleolar organizers**
in *Xenopus* during oogenesis: BOLOUKHÈRE 73

**Oogenesis**
in *Xenopus*, ultrastructure of nucleolar organizers: BOLOUKHÈRE 73

***Paramecium***
antibody-induced membrane fusion: BARNETT & STEERS 153
$Ca^{2+}$-dependent regulation of beat frequency of cilia: NAKAOKA, TANAKA & OOSAWA 223
**Phototaxis**
in *Dictyostelium*, influence of calcium and fluoride: DOHRMANN, FISHER, BRÜDERLEIN & WILLIAMS 111
**Puberty**
in male mouse, meiotic prophase: GOETZ, CHANDLEY & SPEED 249
**Puromycin**
activation of DNA replication sites in *Drosophila* polytene chromosomes: MUKHERJEE & CHATTERJEE 95

**Serotype**
transformation in *Paramecium*: BARNETT & STEERS 153
**Spermatogenesis**
in male mouse: GOETZ, CHANDLEY & SPEED 249
mouse, cell surface glycoproteins: MILLETTE & SCOTT 233
**Spindle thermodynamics**
in crane-fly spermatocyte chromosomes: SCHAAP & FORER II 41
**Sporozoite**
of Coccidia, polar rings: RUSSELL & BURNS 193
**Surface-spreading**
at meiotic prophase in pubertal male mouse: GOETZ, CHANDLEY & SPEED 249
**Symbiosis**
between *Hydra viridis* and free-living *Chlorella*: RAHAT & REICH 265

**Thermotaxis**
in *Dictyostelium*, influence of calcium and fluoride: DOHRMANN, FISHER, BRÜDERLEIN & WILLIAMS 111
**Tumour cells**
cell mobility controlled by cyclic AMP: KATZIN & GERSHMAN 177

**Two-dimensional lectin blotting**
in identification of spermatogenic cell surface glycoproteins: MILLETTE & SCOTT 233

**Video digitizer**
analysis of spindle fibre birefringence: SCHAAP & FORER I, II 21, 41

**Vimentin**
assembly into intermediate filaments, effect of arginine modification: TRAUB & VORGIAS 1

***Xenopus laevis***
ultrastructure of nucleolar organizers during oogenesis: BOLOUKHÈRE 73
